### Maintaining the cleanliness of rooms and common areas

The accommodation users must keep their rooms tidy and clean on a daily basis. Users of accommodation must pay attention to the rational use of electricity, heat, water etc. When leaving the room, accommodation users are obliged to take their card with them and make sure all windows are closed.

Accommodation users are obliged to take out the trash from their rooms. We suggest making a **cleaning plan** with your roommates. If you need it, on reception of Student dormitory Trsat you can borrow a **vacuum cleaner**.

Student Centre Rijeka's staff is in charge of

common area cleanliness (classroom, gym, student laundry).

## Taking care of the environment

For more information on that type of waste, ask about it at the place you got it from, on the Internet, or call the free info number 0800 99 99 00 where you can reach the utility company "Čistoća";

- ✓ Pay bills online in order to save paper;
- ✓ Pay attention to rational water consumption;
- ✓ Pay attention to rational use of electrical energy. Turn off electronical devices when they are not in use. Avoid *stand by* mode;

# Entering the pavilion, room and common areas

You enter the pavilion and room by using your card programmed under your name and surname. To open the room and pavilion door you need to place the card on the card reader.

To enter the double rooms L and D (left and right) use the key you received upon check in. To enter your single bed apartments for students / single bed apartments for professors / single rooms for disabled students, you can use either the key or the card.

### **Pictures 13.** Entering the pavilion

Note: it is strictly forbidden for people who are not users of accommodation to enter the pavilions if they did not check in at the reception beforehand.

Reminder: Due to the current epidemiological situation, visits to all users of accommodation are not allowed! In order to prevent the infection and spread of virus SARS-CoV-2, Student centre Rijeka decided to prohibit the entry of persons who are not users of accommodation in accommodation facilities of the Student centre Rijeka.

You also use your card to enter the classroom and laundry room. Each time you want to use the gym, you have to go to the reception and sign in for a key.

## Informing accommodation users and sending notices

Users of accommodation receive important information, news, alerts, etc. via e-mail. We kindly ask accommodation users to check their inbox on a daily basis. Otherwise, you may miss important information.

We kindly ask users of accommodation to come to the reception and notify us in case they changed their contact information (cell phone number, e-mail address etc.).

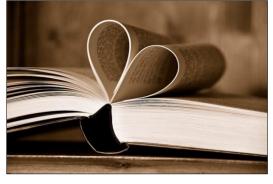

### It is very important that user of accommodation check e-mails regularly.

# **Checking out books**

It is possible to check out books at the reception of the dormitory. For more information, feel free to contact the reception staff.

In all Student Centre Rijeka and University of

Rijeka facilities, connection to the Internet is possible by using the CARNET network. To use the CARNET network, you need to have your own valid <u>AAI@Edu.hr</u> user account. The network in question is called **eduroam**.

To connect to the Internet, you must have a valid <u>AAI@Edu.hr</u> user account issued by your main institution (faculty). You can read the rules on the acceptable Internet use in the dormitory on the following link:

https://www.srce.unizg.hr/usluge/studom/pravilnici

In case of connection problems, at your disposal there are instructions for connecting to the Internet. You can find it on our web page.

Notice: some rooms in pavilion 4 have a CISCO access point. It is strictly forbidden to move those devices. If you turn off the CISCO access point, that part of the building will have a weaker connection.

#### **Recommendations – online lectures**

If you have online lectures, we want to advice you to use wired Internet connection. Due to the construction of the Student dormitory Trsat as well as the features of the WiFi technology, wireless connection can not considered as a stable Internet connection for video streaming or tasks / projects (online lectures). For that stable (wired) connection is necessary.

In case of using WiFi network connectivity all users of accommodation are connected to one device and they need to share Internet speed. On the other side, in case of using wired connectivity users of accommodation will not have such a problem (connection is stable).

Therefore, it is highly recommended to participate in online classes or access to exams by using wired connection to the Internet.

# Dangers of strong wind / rain

Strong wind and a lot of rain are not uncommon during the winter months in Rijeka. In case of strong wind, please:

- ✓ close all windows and doors and move away from the windows;
- ✓ stay inside the room/building;
- ✓ be careful when using the main doors strong wind can knock them out from your hands which can cause major material and other damages;
- move in a bent position, in leeward, holding onto handrails and immovable objects;
- ✓ be careful because the roof tiles, façade, blinds, branches, boards, rocks etc. may fall;
- ✓ do not hide under trees;
- ✓ do not hide under the pavilions because objects (i.e. blinds) could possibly fall from building;
- ✓ park your vehicle in the garage or in a lee.

We kindly ask users of accommodation to make sure all windows in the room and loggia are closed when leaving the room, especially if they will be out for a while.

If it is raining outside and you do not close the window, it is highly likely that water will damage the inside of the room.

We would like to remind you that the accommodation user is obliged to compensate any damage he made on the property of Student Centre Rijeka.

## Instructions for using induction cooktops

Each room has an induction cooktop in the kitchen. Induction cooktops only work with induction kitchenware. If the kitchenware you are using does not have an induction base, the cooktop will not turn on. The kitchenware you receive when you move in has an induction base.
